Authorization for this examiner's amendment was given in a telephone interview with Andrew Lee on February 9, 2009.

The application has been amended as follows: on page 6, paragraph 30, line 22, remove the text "and bar codes" from the specification.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: references by Smirnov et al. (U.S. Patent No. 6,570,578), Oka et al. (U.S. Patent No. 7,102,639), Brunelle (U.S. Patent No. 5,999,194), and Gossweiler, III et al. (U.S. Patent No. 6,400,372) are made of record as describing related methods of rendering a scene in multiple specifications with a user-defined purpose, and rendering multiple specifications of an object, respectively. However, none of the cited prior art teaches or suggests scene descriptor data including a first specification of at least one object, and a second specification of at least one object, wherein the first and second specifications are separately derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
